INVITATION FOR EXPRESSION OF INTEREST

Opportunity for Local NGOs in Al Anbar – Iraq

Near East Foundation Belgium is implementing the Anbar Business & Workforce Advancement for Improved Living Conditions (ABWA) project funded by the people of Germany through GIZ. The overall goal of the Project is to increase incomes and job opportunities provided through micro-, small and medium enterprises by improving the business development and support environment and facilitating access to capital and networks for entrepreneurs in Al Anbar Governorate.

As a component of ABWA, the Project is seeking to engage local NGOs in Al Anbar (Heet, Ramadi, and Fallujah Districts) to work in partnership with NEF to deliver project activities. NEF will provide the LNGOs with capacity-building support to enable them to co-deliver business development services/ manage Siraj Centers. Partner LNGOs will receive funding to provide the services as per the scope of work. NEF through this project will also invest in partner LNGOs to improve their overall programming. This will be in the form of financing a performance enhancement plan through NEF's proven NGO Organizational Model Innovation (OMI) approach.

Interested local NGOs from Al Anbar should submit the EOI (following the prescribed format) along with supporting documents via email marking "EOI/LNGOs/IQ-01" in the subject line at procurementiraq@neareast.org within fifteen days of publication of this opportunity.

Further information and EOI format can be [downloaded from here](#).

Non-responsive or late EOIs may not be entertained. Advertisement of EOI does not commit any funding on the part of NEF. Time spent by the local NGOs for drafting and submission of this EOI cannot be claimed.
